

GINKGO AND UNITED FOILS EUROPE ANNOUNCE DISTRIBUTION AGREEMENT IN EUROPE

Ginkgo Film Coating Technology Corp. has recently joined forces with United Foils as its exclusive distributor in Europe

of hot stamping foils for the plastics industry, which includes cosmetic plastic packaging (metallic and holographic), household and industrial electronic appliances, exterior and interior foils for the automotive industry, etc.

United Foils, located in the Netherlands, can rely on many years of knowledge of the hot stamping industry.

United Foils not only has technical specialists with over 20 years of experience in the plastics industry, but can also rely on state-of-the-art slitting and storage facilities and a reliable distribution network.

Because the present location has become too small to fit the growing business activities, United Foils has just started the construction of a new office and warehouse at a prime location in Waalwijk, the Netherlands,

Ginkgo Film Coating Technology Corporation was established in 1988, as a manufacturer specializing in film coatings and metallizing techniques in Taiwan. Ginkgo's equipment includes coating machines, slitting machines, and vacuum metallizing machines from ULVAC of Japan. From R&D to manufacturing, Ginkgo is dedicated to providing the highest quality products and technical support for different sectors in various industries such as printing, packaging, clothing, consumer electronics and more. Ginkgo not only fulfills customers' need, but also creates the demand.

With the addition of Ginkgo's products, United Foils is able to add an important complementary product line to their portfolio and become an important and valuable partner of the European plastics industry.

The partnership with United Foils, allows Ginkgo to gain access to the important European plastics market.

Ginkgo and United Foils' common goal is to develop the Ginkgo brand to become a leading supplier of hot stamping foils for the plastics industry.
